FOR IMMEDIATE RELEASE

pVelocity Manufacturing Profit Intelligence™ software earns “Powered by SAP NetWeaver®” qualification

Toronto, Canada – April 20, 2006 – pVelocity® Inc., a leading developer of Manufacturing Profit Intelligence™ software, today announced it has earned “Powered by SAP NetWeaver®” qualification from SAP AG. SAP NetWeaver is the open integration and application platform upon which the pVelocity solution is built. pVelocity has achieved this qualification through the certified integration of pVelocity’s pV Engine 7.4 as an ABAP Add-on.

According to pVelocity CEO Paul Betsis, “This is an exciting milestone for pVelocity. Attaining ‘Powered by SAP NetWeaver’ qualification demonstrates our high level of expertise and commitment to all integration and application performance needs of our customers. By integrating its software through SAP-endorsed technologies, pVelocity has once again demonstrated ability to deliver real business value to both SAP’s and pVelocity’s customers.”

Hydro North America is a prominent pVelocity customer. Says Manfred Gollent, Regional VP & GM of Hydro North America, “This qualification allows us to seamlessly integrate the pVelocity software into our , extracting and presenting the data in a common format for analysis and better business decisions.”

The SAP NetWeaver platform powers mySAP™ Business Suite applications, SAP® xApps™ packaged composite applications, but also pV Engine 7.4 and other partner solutions. It provides the best way to integrate all systems running SAP or non-SAP software. SAP NetWeaver unifies integration technologies into a single platform and is pre-integrated with business applications, enabling change and reducing the need for custom integration.

About pVelocity

pVelocity’s Manufacturing Profit Intelligence software allows process manufacturers seeking increased profits to unlock the value inherent in their investments in ERP, MRP, or legacy financial systems. pVelocity’s software solution takes the rich data available from these transaction systems and provides manufacturers with necessary intelligence about their products, customers and processes, in order to help increase their overall profits. The company has a growing list of prestigious manufacturing customers with multi-plant installations in various industry segments, including chemicals and extruded metals. With headquarters in Toronto, Canada and offices in the UK, privately-held pVelocity was founded in 2001. Please visit www.pvelocity.com
